Rank Prefix:
G = Global Rank
S = State Rank
T = Global or State Rank for a subspecies or variety

Rank Suffix:
1 = Critically imperiled
2 = Imperiled
3 = Vulnerable
4 = Apparently secure
5 = Secure

Listing Codes:
E = Endangered
T = Threatened
SC = Special concern
M = Monitored

B = Breeding population
N = Non-breeding population
H = Occurred historically, not seen recently
X = Extirpated
NR / U = Not ranked / Unknown
Q = Questionable taxonomy
? = Uncertain
