

Request for a NH Natural Heritage Bureau Database Check

Valid only for: NH Dept. of Environmental Services Wetlands Forestry Notifications

The NH Natural Heritage Bureau (NHB) maintains a database of known locations of rare species and exemplary natural communities. Federal, state, and local agencies may require a check of this database to inform whether proposed projects could impact rare species. You can request a check by using this form, or by using the online DataCheck Tool.

Contact Information

Name: _____
Phone number: _____ *E-mail: _____
Mailing address: _____
Town: _____ State: _____ Zip: _____

*Results will be e-mailed if an e-mail address is provided above, otherwise mailed.

Landowner Permission

- As the landowner, I affirm that NHB should release the data.
or
 I affirm that the landowner, _____ (print landowner's name) knows that I am making this request and agrees that NHB should release the data.

Signature (if sending digitally, print your name): _____ Date: _____

Project Information

Town: _____
Address or Tax Map & Lot #(s): _____

Short narrative description of the project:

All requests must include the following:

- A map of the project area (see example on page 2)

Requests can be submitted by e-mail, fax, or mail:

E-mail: nhb.review@dncr.nh.gov or Amy.Lamb@dncr.nh.gov

Fax: (603) 271-6488, Attn: NHB Review

Mail: DNCR - NHB
NHB Review
172 Pembroke Road
Concord, NH 03301

Requests will be processed within 3-5 business days of the date received. You will be emailed/mailed an "NHB DataCheck Receipt" that must be included in your Forestry Notification package.

If the NHB database has records of rare species or exemplary natural communities in the vicinity of your project, you will *also* receive a letter with recommendations for avoiding or minimizing possible impacts. The recommendations are for your consideration: DO NOT include them in your notification package.

Call Amy Lamb at (603) 271-2834 with questions.

Map Instructions and Examples – NH Natural Heritage Bureau

Wetlands Forestry Notification Applications

- Place a clearly visible dark point or line at the site(s) of the notification action(s), e.g. a point at each culvert or bridge. Label these points with the crossing type, or include a map legend.
